

**At Spring Hill High School we aim to**

- To help all students reach their full potential, with a greater focus on support that enables those with SEND to succeed in their education and make a successful transition to adulthood.
- To reduce barriers to learning and achievement by providing each student with a personalised learning programme that is differentiated according to need.
- To identify and provide for students who have Special Educational Needs and other Additional Needs through a graduated approach.
- To adhere to the guidance in the Special Educational Needs and Disability (SEND) Code of Practice 2014.
- To ensure a whole school approach to the management and provision of support for Special Educational Needs so that each student's needs are identified and met.
- To provide a suitably qualified and experienced SENDCo who will lead and facilitate SEND provision within the school.
- To provide support and advice for all staff working with students with SEND.
- To develop, lead and maintain partnerships and high levels of engagement with parents, students and all stakeholders in relation to SEND.
- To ensure access to a broad and balanced curriculum for all students regardless of SEND.
- The school also works alongside various support agencies such as Forward Thinking, Birmingham (previously Children and Adolescent Mental Health Services, CAMHS), Educational Psychologists, Clinical Psychologists, Occupational Therapists, Speech and Language Therapists, Music Therapists, Residential Care Home Managers, Social Care Teams, Barnardo's, Youth Workers, Youth Offending Teams and the DICE Team. This provides a holistic approach to every student's well-being. The school firmly believes that the co-operation between education, health and social care is in ensuring the best outcomes for the students at Spring Hill High School.

The SENDCo at Spring Hill High School is Rebecca Clinton, she has day-to-day responsibility for leading SEND provision within the school along with the Headteacher, Gary Edmunds. Rebecca holds QTLS status and is currently studying for the National Award in Special Education Needs (PGCert)

At Spring Hill High School we are passionate about ensuring all our students can play a full and active role within the school. We do not discriminate against students due to their SEND needs. We will endeavour to make appropriate access arrangements or adaptations depending upon individual need. Spring Hill High School is supported to be as inclusive as possible, with the needs of students with SEND being met in a mainstream setting if appropriate; however there are some students whose needs are best met within a specialist setting such as Spring Hill High School.

There are currently students with a range of complex and significant identified needs. Many students have associated needs in the areas of social, emotional and mental health needs and communication and interaction difficulties, other students may have sensory processing difficulties (Autism Spectrum Condition), Attention Deficit Hyperactivity Disorder, Tourette's Syndrome, Oppositional Defiant Disorder, learning difficulties, Anxiety Disorders, Conduct Disorders among others. The admission arrangements for students can be found on our website under 'Admissions and Referrals Policy.'

The school sites specifically suitable for disabled access is:

141 Wood End Lane, Birmingham, B24 8BD.

36 Hunton Road, Birmingham, B23 6AH.

**Identification, assessment and provision for all students with SEND.****Identifying Special Educational Needs:**

A student is considered to have Special Educational Needs if they have either a learning difficulty or a disability and they need special educational provision to be made for them. Special educational provision is defined as any education provision which is additional to or different from that generally made for others of the same age in mainstream school.

At Spring Hill High School we believe that our teachers are teachers of all students. It is their responsibility to meet the needs of all students within their care. They do this by employing high quality teaching strategies which acknowledge the individual needs of each student they teach. When a student does not make adequate progress this is identified and intervention and/or additional provision is put in place to try to address this. The Code of Practice suggests that students are only identified as having a Special Educational Need if they continue to fail to make adequate progress once they have had all the appropriate interventions/adjustments and quality personalised teaching. At Spring Hill High School all of our students have been identified as having Special Educational Need(s) and do have an Education Health and Care Plan (EHC).

The Code of Practice (2014) identifies four broad categories of Special Educational Needs.

These are:

- 1. *Communication and Interaction***
- 2. *Cognition and Learning***
- 3. *Social, Emotional and Mental Health Difficulties***
- 4. *Sensory and Physical Needs***

At Spring Hill High School we recognise that these four categories broadly identify aspects of the primary need for a student with SEND, however, we also acknowledge that every student is unique, we understand the importance of examining the needs of the “whole child/young person”. We recognise the need to gather information about the student from everyone involved in the student’s education, and acknowledge the importance of information about the student from other partners in their education, particularly their parents/carers, social workers and local authorities. We work in close partnership with all involved to ensure the best possible provision for the student.

**Special Educational Needs support**

At Spring Hill High School, we are continually assessing, planning, implementing and reviewing our approach to the teaching of all students. However, due to the specific identified SEND needs of our students this

process becomes increasingly personalised as it responds to a growing understanding of the child's barriers to, and gaps in learning and an increasingly individualised assessment of need.

### Quality First Teaching

Teachers are responsible and accountable for the progress and development of all the students they teach. (Teachers Standards, 2011). At Spring Hill High School teachers are supported in this by the Headteacher, Deputy Headteacher, Assistant Head Teachers, Subject Leaders and the SENDCo who together have termly Progress Meetings where they discuss the attainment and progress of all learners at the school. Students are identified as being above target, on target or below target, this information is then disseminated to the whole teaching team, TSA's, students themselves and their parents/carers. Additional support and/or timely interventions are then put in place and monitored throughout for their effectiveness. Short Term Outcomes are monitored by all teaching staff and designated Heads of Site to ensure that every opportunity is taken to help the student progress, whilst identifying areas that the student may need additional support to achieve the desired outcome and progression. Individual Learning Plans (ILPs) capture termly progress on student's short term outcomes, it is a tool that enables increased participation of students reviewing their own progress and setting themselves new outcomes. Parents and carers were also invited to the termly review of ILPs, this ensured that any out of school and home support could also be put in place. Parents and carers receive a termly school report which reports on academic achievement and progress.

Despite this, we recognise that additional intervention and support cannot compensate for a lack of good quality teaching. We ensure, through Performance Management procedures, that any underperformance in teaching is addressed and the impact on students minimised. This year Spring Hill High School worked closely with a highly experienced education consultant and member of Birmingham Education Partnership to help develop leadership, curriculum, teaching practices and Governor training. Regular Continuing Professional Development (CPD) is provided to enhance staff skills and understanding of SEND.

Spring Hill High School has also introduced The Thrive Approach programme. Thrive offers a trauma-informed, whole setting approach to improving the mental health and wellbeing of children and young people. Currently, the school has one Thrive Licensed Practitioner and one Building Emotional Health Practitioner. All staff received Thrive training in June 2022 to ensure all members of staff feel equipped to support the delivery of the programme. The delivery of this intervention will begin in September 2023.

Where a student is identified as still underachieving the first response is made by a teacher who plans appropriate differentiation, and in discussion with the Subject Lead and SENDCo appropriate interventions and individualised target setting for the student in question. The teacher will complete an initial concerns checklist<sup>1</sup> which will collate a clear analysis of the student's needs. The Code of Practice suggests using a range of sources of information including:

1. Teacher's assessment and experience of the student.
2. Student progress, attainment and behaviour.
3. The individual's development in comparison with their peers.
4. The views and experience of parents.
5. The student's own views.
6. Advice from external support services if already involved.
7. Standardised testing, criterion referenced assessments, screening assessments.

<sup>1</sup>Written and reviewed by Rebecca Clinton (SENDCo) 01/09/2023

If following a period of additional intervention and targeted support, which has been effectively monitored, the student is still underachieving, the Headteacher and/or Deputy Headteacher, in discussion with the SENDCo, will seek other appropriate interventions and targeted support. The Local Authority (SEND Teams) will be informed if any substantial and/or persistent underachievement is evident.

### **School Support**

At Spring Hill High School we continue to use a cyclical approach to planning support and delivering improved outcomes for children with SEND. This allows the school to continually reflect on the approaches we use to meet students' needs.

This approach can be seen as follows:

#### **Assess – Plan – Do - Review**

- Assess – the student's needs
- Plan – what you need to do, the provision needed and what outcome should be achieved
- Do – put the provision in place
- Review – what difference is it making towards outcomes?

All interventions are planned in collaboration with the wider staff team at Spring Hill High School and could include; Therapists, Deputy Headteacher, Assistant Headteachers, Subject Leads, Teachers, Teaching Support Assistants, and SENDCo, and are often evidence-based interventions, such as That Reading Thing, IDL and Sumdog.

The level of support provided will be flexible and will depend on the immediate needs of the individual student. Those who deliver interventions provide regular written updates about the impact of the provision for each child.

All staff continually review the progress of all students on a daily, albeit informal, basis in every lesson through marking and feedback opportunities as well as regular discussions with support staff, and staff will make necessary adaptations to teaching and learning approaches and provision as appropriate

At Spring Hill High School there are also more formal, rigorous ways of tracking progress. These include termly progress meetings and student termly reports. These meetings will consider whether students with SEND are on track to reach their targets, whether there is an increase in previous rates of progress and whether there is a narrowing gap in attainment and progress.

It is important at this stage to assess whether they require more or less interventions to overcome barriers to learning, or whether the school has, despite its best endeavours, been unable to effectively address the SEND of an individual student. If this is the case the school will consider whether it needs to request advice from outside agencies. If this is considered in the best interests of the student, the SENDCo will facilitate a referral to the appropriate agency after collaborating with parents/carers, students, staff and the Local Authority.

### **Education, Health and Care Plans**

The local authority must ensure that the specified special educational provision on the student's EHC plan is secured. Spring Hill High School will use all the resources available to meet the needs of these individual students to the best of its ability.

The Children's and Families act 2014 requires local authorities to review an EHC plan within 12 months of it being issued and then every subsequent 12 months. This responsibility is usually delegated to the school. All Annual reviews will be chaired by the SENDCo and all involved parties will be invited to attend.

The SENDCo completed all annual reviews within a 12 month period of the last review, with the exception of students where the review date was previous to the student enrolling with Spring Hill High School. All reviews were completed within 6 months of the students enrolling.

Families may choose to request a personal budget to support them in securing the provision identified in the EHC plan. If this option is chosen the SENDCo will support the family in accessing the services they require.

During the academic year 2022-2023 there were 33 students on roll at the school and all students had an Education Health Care plan (EHC).

All students are on the SEND register and have a primary need and secondary need identified.

### Primary presenting need of students within the school (2020-2021)

Communication and Interaction	5
Cognition and Learning	0
Social, Emotional and Mental Health Difficulties	28
Sensory and Physical Needs	0
Total number of students	33

Our students are faced with many difficulties and an array of barriers to their learning, examples of diagnoses are: Autism Spectrum Condition, Oppositional Defiant Disorder, Conduct Disorders, Learning Difficulties, Attachment Disorder, SLCN, ADHD and PTSD.

### Budget Allocation

SEND funding has been allocated towards the payment for staffing for support, equipment, music therapy, speech and language therapy, music production as enrichment, English and Maths intervention, assessment tools, staff SEND training and development and towards the purchase of resources to support the teaching and provision for students with SEND.

## Spring Hill High School Examination Results 2023

### GCSE

Subject	Students entered	Student achieved grade 1-9	Students achieved grade 4 or above	Notes
English Language	3	2 (66%)	0 (0%)	

<b>Maths</b>	1	1 (100%)	0 (0%)

<b>Sports Leaders</b>	Level 1 Qualification in Community Sports Leadership	1	1 (100%)	1	
-----------------------	--	---	----------	---	--

### **Attendance monitoring:**

As with all groups of learners, attendance is monitored closely for every child with SEND and rigorous procedures are followed if attendance dips below expected levels.

	Overall School Attendance	Children in Care	Authorised Absence	Unauthorised Absence	Exclusion
2022/23	74%	76.29%	12.45%	12.95%	27 days

For the academic year 2021-2022 the overall school attendance was 79%, which represents an improvement of 12.52% on the previous year. However, we do recognise that there is scope for further improvement, with a target set of 85% plus for the next academic year.

### **Consulting parents/carers of students and involving them in the education of their child:**

Parents/carers are fully included in the process of working with their children/young adults. Spring Hill High School has had to make reasonable adjustments to their normal approaches of involving parents/carers in the education of their child.

This includes:

- Initial visits to school
- Introductory meetings
- Regular home/school contact for information exchanges and key messages
- Open door policy for parents and carers.
- Annual Review meetings and reports
- Termly reports sent to parents and carers
- Termly parent/carer face to face or virtual drop-in and progress sessions
- Regular parent/carer group and training
- End of term celebrations
- Parent involvement in changes in school through informal and formal consultations

### **Consulting our students and involving them in their education:**

All students in our school are treated with dignity and respect. There is full personalisation for the curriculum for each student in order that they can access and experience success throughout their school life.

The School Council involves students to contribute and decide on aspects of school life relating to their needs.

The assessment and annual review process of EHC Plans includes the choices and views of our students. The views of looked-after children and young people are also gained during termly PEP reviews and six-monthly Child in Care reviews.

### **Dealing with complaints from parents/carers of students in relation to the provision made at Spring Hill High School:**

The process for all complaints is made available in the complaints policy, this is available on the website.

### **Staffing decisions:**

The Headteacher provides the Governors with regular updates regarding the deployment of staff to support students with SEND.

The Headteacher provides the Governors with regular updates regarding In Service training for staff in relation to SEND.

### **Partnership with external agencies:**

At Spring Hill High School we believe it is paramount to liaise closely with external agencies to ensure the best possible provision for every child within school.

The following agencies have supported students within school this year:

- Clinical Psychology
- Virtual Schools
- Occupational Therapy
- Speech and Language Therapy
- Music Therapy
- Forward Thinking, Birmingham
- CAMHs
- Communication and Autism Team
- Police including Prevent teams
- Safeguarding (MASH and LADO)

At Spring Hill High School we also recognise the importance of effective transition arrangements, both from key stages and transitions to other school sites. We also work closely with colleagues from other settings to ensure smooth transitions for all SEND students. We continue to have strong links with local provisions including QAC, BMET, South and City, as well as further afield, e.g. Warwickshire College. Opportunities to visit the centres are available for parents and students should they wish. We ensure, where needed, additional transition arrangements are made.

Our in-house independent Careers Adviser, Julie Washington, works closely with all our students to support them in exploring their career aspirations and providing them with work-related learning and work experience. This is also supported by Chris Delahaye, the Deputy Head Teacher and Careers Lead. All

students at Spring Hill High School have access to a robust careers curriculum. The school has achieved a CEIAG Award, this is a nationally validated careers education, information, advice and guidance and means that Spring Hill High School met a range of criteria, focusing on quality, diversity and raising the aspirations of young people.

- All students had one or more meetings with our Independent Career Adviser, Julie
- All students had a Career Action Plan
- All students had the opportunity to engage in careers-related activities during the year according to their year group. Examples are; Guess my Job, Jobs in School, Enterprise projects, workshops with employers in school by Willmott Dixon, the DWP, HSBC amongst other visitors. There were talks from ASK apprenticeships, Jobs working with Cats by Cats Protection, and visits to colleges.
- All students had the opportunity to take part in work experience or experience of work. Examples of providers are Lovell Homes, Lindale and Leonard Cheshire Homes and The Donkey Sanctuary. Those that were not ready to go out of school were offered internal work experience.

Students' progression from Spring Hill High School can be seen as one of the school's greatest strengths, when we take into consideration the difficulties our students have to overcome in order to make progress.

**Destinations 2022-2023:** 8 students were in transition years.

Destination	Number of students	Percentage of students
University	1	12.5
Further Education College	1	12.5
Specialist Provision	1	12.5
Spring Hill Post-16	5	62.5

Our students with SEND are also supported by a Speech and Language Therapist and a Music Therapist. Nineteen students accessed music therapy - all of these interventions provide regular or end of course impact reports with outcomes linked to EHC needs and difficulties. Thirteen students were supported by an NHS Speech and Language Therapist (NCPC registered) to help them develop their expressive and receptive language skills.

#### **Continuing professional development for staff:**

At Spring Hill High School we are committed to a rigorous cycle of Performance Management linked closely to continuing professional development. Functional Analysis training takes place throughout the year with a focus on an individual student, this takes the form of an ABC analysis, observing and recording Antecedent, Behaviour and Consequence data assists the whole staff team in forming a historical background by gathering evidence, highlighting presenting behaviours and gaining an understanding of why these behaviours are present. This then informs staff of strategies to use and best practice with the individual. As a whole staff team we have had INSET training on Gender Awareness, Speech Language and

Communication Needs and The Thrive Approach. All staff also take part in weekly training sessions covering the following topics, Curriculum Expectations, Current Issues in Teaching and Learning, Curriculum Quality and Vision, Deep Dives in the Curriculum, Safeguarding, TFT, Exam Invigilation, Music Therapy, Eating Disorders, Transitional objects, Zones of Regulation, and Positive Behaviour Plans. Specific members of staff also received First Aid Training and Administering Medicine in Schools.

Special Educational Needs funding has had a positive impact on the progress of those students it has supported in the year 2022-2023. We have a rigorous use of assessment data and tracking data, progress is also evident in the reviewing of outcomes during EHC reviews, specifically with the continued use of Individual Learning Plans (ILPs). This has taken place within a nurturing school environment which believes strongly in access for all students regardless of need to a broad and balanced curriculum.

#### **Accessible Schools Plan:**

Under the Disability Equality Duty, schools are required to take proactive steps to ensure their disabled students, staff, directors, parents/carers and visitors are treated equally. Spring Hill High School has an accessible school site (Wood End Lane) which aims to address any issues of accessibility for our school community. Currently the school has good facilities for disabled members of the school community, both within the physical environment and access to the curriculum and information for students. There is a fully equipped disabled toilet in the building and a wheelchair accessible ramp upon entrance. We have dedicated medical rooms on all school sites to ensure the welfare of the students in the event of short-term illness. We try our best to ensure that parents/carers whose first language is not English are supported, we have a diverse staff team that can speak several different languages.

#### **Links to Birmingham Local Offer:**

For children with Special Educational Needs and Disabilities and their families

#### **If parents/carers have concerns relating to their child's learning:**

Discuss these with your child's Site Leader. This then may result in a referral to the school SENDCo, Rebecca Clinton. Tel: 0121 240 0992 or on her mobile 07511 154419

- Parents/carers may also contact the SENDCo directly if they feel this is more appropriate.

Tel: as above or Email: [rebeccaclinton@springhillhighschool.co.uk](mailto:rebeccaclinton@springhillhighschool.co.uk)

- All parents/carers will be listened to and respected, their views and aspirations for their child will be central to ensuring their child's school journey is positive and fulfilling.

***"Simon has been attending Spring Hill High School for 14 months now and his complex special needs have not posed a risk to anyone else, including Simon. The school has managed Simon well. I am very grateful to the school for that. They have worked closely with me from the start and encouraged me to share my knowledge, ask for my views, and***

***they have shared all relevant information on Simon with me. I am very appreciative of the school for this. ” (May 2023, Parent)***

***"[Singing this song] makes me happy and makes me proud. Proud that I can actually stand out and I can do it." (July 2022, Warwickshire student)***  
***"It's amazing....I don't think I've ever been to a school like this...it just treats you right....They give you respect, like, you give and you take and it's just like they're here for you no matter what. Even if you are having a bad time, they're there. They're not just going to be like: 'no' go for it yourself - they're HERE no matter what, they're there for you."***  
***(July 2022, Feedback from student to Music Therapist)***

***"This has been amazing for him..! he has loved it all.. yet another achievement to add to his growing number at Springhill."***
